UAW RETIREE
Medical Benefits Trust

July 2019

Action Required to Save Money

EFFECTIVE JANUARY 1, 2020

- You and your eligible dependent(s) will automatically be re-classified as Protected
- You will have the option to see savings in a new Protected Medicare Advantage (MA) PPO plan with much lower out-of-pocket costs

Dear UAW Trust Member,

The UAW Retiree Medical Benefits Trust (the “Trust”) is committed to providing you access to quality, affordable health benefits. In the 10 years since the Trust launched, we have improved the medical benefits offered to our members and have also grown the assets of the Trust.

For next year,

our primary focus is to improve member affordability by reducing out-of-pocket costs.

In doing so, we are making significant improvements to Trust benefits for our members with low pension income. Back in 2006 when the Trust was created, the UAW bargained with the auto companies and established two categories for retirees: Protected and General. Under these Settlement Agreements, Protected retirees have lower out-of-pocket costs for benefits, to make sure they can afford care.

Effective January 1st, we are expanding our Protected group to include all retirees who retired before October 1, 1990 and all surviving spouses of retirees who retired before October 1, 1999.

Under this new eligibility criteria, you now qualify for the Protected group category.

As a newly Protected member,

you have access to the same plan options you had before. But, depending on the plan you choose, you can see significantly lower out-of-pocket-costs in 2020.

**If you choose to enroll in the Medicare Advantage (MA) PPO plan,
your out-of-pocket costs will
be significantly reduced.**

Take a look at the charts in this document for savings details.

MA PPO Plans: More Value & Benefits

To offer peace of mind and choice, several years ago we introduced Medicare Advantage (MA) PPO plans to Trust members. They are a popular and cost-effective health plan choice for many Trust members.

Currently, more than

340,000

**Trust members are enrolled in
an MA PPO plan**

Of which

96%

**report being more satisfied with
the MA PPO plan compared to
their previous plan**

Our MA PPO plans have valuable health programs and services, which members enjoy. Now that we have also modified the benefit level for Protected members, there is increased financial value as well. With your new classification as a Protected member, you and your Medicare-enrolled dependent(s) have the option to enroll in a new MA PPO plan designed specifically for Protected members.

This new MA PPO plan will provide significant savings for Protected members without reducing the level of benefits in any way.

An MA PPO plan is a health care option for the Medicare program, approved by Medicare and offered by a private health insurance company. Because Medicare approves these plans, they have the same benefits as Traditional Medicare, as well as additional benefits.

In the case of the Trust-sponsored plan, the carrier offering the MA PPO plan in your state is Blue Cross Blue Shield. To learn more about the MA PPO plan and its benefits, be sure to review the *Frequently Asked Questions* insert included.

MA PPO Plan Benefits

If you call to enroll in the MA PPO plan, you can access new helpful care support programs. **These programs include:**

Care Management: Programs to help you manage chronic and complex conditions and help improve your health and wellness. Nurses provide support to participants by phone, and can also coordinate care with providers.

In-Home Wellness Visit: A licensed doctor or nurse will come to your home to review your health needs, assess the safety of your home, review medications, and can share the summary of your visit with your provider.

SilverSneakers®: A fitness program giving you access to over 16,000 participating gyms nationwide. If you can't make it to a local gym, you can get a home fitness kit.

Virtual Visits: 24/7 access to a licensed doctor who can help answer health questions by web, phone or mobile app.

Nurseline: 24/7 access to nurses who can help answer health questions over the phone.

Even if you've explored our Trust-sponsored MA PPO plans before, take another look.

This new Protected MA PPO is designed to offer you **greater value** for your healthcare dollar by **lowering cost-share** such as deductibles, copays, and monthly contributions.

Below is a brief description of the new Protected MA PPO benefit design:*

Up to a **\$1,004** savings per member, per year, plus savings on copays!

(savings based on single person monthly contribution and annual out-of-pocket maximum)

In addition to the added benefits and cost savings,

MA PPO plans offer enhanced coordination with Medicare so you will only receive one Explanation of Benefits (EOB) and will only need to carry one medical ID card.

Your change to Protected status, or if you choose to enroll in the Protected MA PPO plan, does not impact your 2019 retiree medical benefits, as this coverage begins in 2020. In order to enroll in the MA PPO plan you must be enrolled in Medicare Part A & Part B. If anyone in your family is enrolled in Trust coverage and not enrolled in Medicare, they will not have the MA PPO plan as an option until they enroll in Medicare. To learn more about the cost share for all available Protected plans (Medicare and non-Medicare), please look for the “Benefit Highlights” mailing in September.

Next Steps

In the coming weeks, you will receive information about the new Protected MA PPO plan through the mail.

Information: You will receive a mailed packet from Blue Cross Blue Shield. This packet will be marked with the Trust and carrier logo. Inside you will find additional plan details.

Meetings: You will be invited to attend face-to-face meetings (where available), or informational conference calls being held this fall. These sessions will allow you to learn about the new plan option and ask questions.
